**Terry:**

**Can you ask your Haz Waste Folks the following question?**

**We have a bunch of totes/drums that we need to get rid of and I wanted to confirm the State rules associated with the drum disposal/recycle. Most drum recycling companies (ie. National Container Corp, Industrial Container Corp, West Texas Drum) require the drums to have:**

- 1. Drum Product Label**
- 2. Want MSDS for the Last Product**
- 3. Want the Drum cleaned and drip dry**

**What are the TCEQ requirements associated with empty containers?**

**Thanks**

**Gary Moore**
